## **MVTC-3R (421) RESERVE CANOPIES**

At the Riggers Subcommittee meeting of 19th of November 2015, it was agreed that all Ex-Military MVTC-3R 421 Reserve Canopies which had been grounded (SN 2/14) are now cleared for General Sport use with the same limitations of that of the Sport 421 Tandem Canopy.

The Ex-Military MVTC-3R 421 Tandem reserves are of identical construction to the Sport 421 Tandem reserve canopies with the only differences being aesthetic (colour) and the serial number/ prefix number.

At present all other ex-military (Grey) Vectors containers remain grounded by SN 2/14 until presented with the appropriate documentation to the Riggers Subcommittee for acceptance.
