BRITISH PARACHUTE ASSOCIATION

SAFETY NOTICE

1. Several items of equipment manufactured by Jack Hiley have been brought to the notice of STC recently.
2. The worst of these was a copy of the 'Racer' pack and harness with an incorrect, unsafe routing of the reserve ripcord housing where it is sewn to the pack.
3. As a result of this example and others, the STC have banned all parachute equipment manufactured by J. Hiley until it has been cleared after inspection by a BPA Master Rigger.
4. CCI's are particularly advised to check equipment brought onto their DZ by visiting jumpers.
