

TANDEM STUDENT HARNESS AIRWORTHINESS INSPECTION

Student Tandem harnesses must be inspected monthly and certified as serviceable, by a Tandem Instructor or an Advanced Packer (Tandem). The harness must also be inspected and certified as serviceable every six months by an Advanced Packer (Tandem).

Harness Identification Ref/No: _____

Manufacturer's Serial No: _____

Date of Manufacture: _____

Areas of Inspection: a) Top attachment hooks, condition and closes properly, b) Side attachment hooks, condition and closes properly, spring return effective, c) Front lift webs, stitch patterns, webbing and adjustors, d) Chest strap, webbing and adjustor, e) Leg straps, webbing and adjustors, f) Back straps, webbing and adjustors, g) Comfort pads, h) Hook knife attached

I declare that I have inspected the above harness with all reasonable care and could find no faults to render it unserviceable.
