

CANOPY SIZE CHART CT3/CT4*

1: FIND YOUR WEIGHT 2: FIND YOUR EXPERIENCE LEVEL 3: FIND YOUR MINIMUM CANOPY SIZE

*This chart is for those who have completed CT3 and/or CT4.

To allow for the use of ancillary equipment such as cameras, weight belts, daily fluctuations in weight and difference in canopy manufacturers sizing jumpers are allowed up to a 10% variation in the stated canopy size. Form 330 is a standard minimum & not an automatic allowance. Skydivers wishing to downsize should discuss their options with their CI and should only downsize up to 15% smaller than their current canopy at any one time. Regardless of any information the chart, jumpers should not exceed the manufacturers recommendations for use of that canopy. Once you have reached 2000 jumps you are responsible for the selection of your canopy size, please always seek advice from your CI.

EXIT WEIGHT kg (with all kit to include rig, helmet, altimeter, accessories, weight belt etc.)

	JUMP NUMBERS CT3								JUMP NUMBERS CT4
